Edge-Loc Metal Roofing Panel is an economical, innovative addition to the PAC metal roofing line. Edge-Loc panels feature a 1" leg height and a continuous interlock for improved performance. These panels require no clips. Edge-Loc panels can be an economical panel solution that meets a variety of roofing design requirements.

A minimum 3:12 pitch is required. Not designed for low slope roofs.

Oil Canning is not a reason for rejection. Must sign oil canning waiver when ordering smooth panels.

Edge-Loc can be used in a variety of applications to accommodate several building designs. Edge-Loc metal roofing panels have an integral interlocking system by design, meaning the panels install in one direction. Edge-Loc has a continuous fastening edge that is easily installed using standard screws.
